Roadmap

PC DS VS MN +2
Status category ▾
Epic ▾

Standup Meeting (Twice in Sprint): Sprint 3

Standup 1 (03/31):

- Few attributes for agreement view page related doubt cleared
- Commencement Sales Agreement View UI and API Development
- Discussion on Unit testcases for Sales Agreement and Customer onboarding.

Standup 2 (04/06):

- Completion of Database Stories
- Cloud AWS CodeBuild configuration complete in AWS
- AWS Elastic Bean Stalk configured for Sales Module
- Clarified on UI Design for End Customer Tracking page and as Team discussed few changes required.

Standup Review (04/10):

- Demonstrated the service API working with DB connection.
- Demonstrated CI/CD for Sales Module.
- Discussed the functionality covered for both API and UI.
- Need more time to complete user story S5-96, so split the user story and incomplete task moved to Sprint 4 as Spike story.

Standup Retrospective (04/11):

- Team needs more development pace.
- Team needs more communication between UI and Backend Developers since there were availability issue.
- Team members need to provide at least 4hours time for any communication replies and team member need to reply not more than 4 hours.
- Be prepared for demos and check issues before demo.
