Standup Meeting (Twice in Sprint): Sprint 4

Standup 1 (04/22):

- Setup AWS EC2 instance and AWS CodeDeploy for Customer Module
- Discussed the functionality covered for both API and UI.
- Need more time to complete user story S5-96 split completed.

Standup Review (04/25):

- Setup AWS EC2 instance and AWS CodeDeploy for Customer Module
- Discussed the functionality covered for both API and UI.
- Discussed about pending presentation slides creation.
- S5-122 Still in blocker state. Prateek and Monica are working on it as of 04/25 9:53 PM

Standup Retrospective (04/11):

- Team needs more development pace.
- Team needs more communication between UI and Backend Developers since there were availability issue.
- Be prepared for demos and check issues before demo.

Blocked User Story:

Projects / SSW 555 / S5-33 / S5-99

End-Customer: Customer Installation Tracking Unit and Smoke Testing

Description

As a Developer and Tester, I want to integrate Customer Installation Tracking UI and Service and perform Testing so that I can verify there no bugs in the flow.

Acceptance Criteria

Given: Customer Onboarding UI and service

When: customer onboarding is integrated

Then: Check for any bugs/issue in the flow

Impact None
